

If you want to sell a vehicle you can bring it to the For Sale Car Corral as early as Friday morning, August 2nd and for only \$20 your car will be viewed by thousands over a period of three days in our separate car-for-sale area. Bring your title, you just may sell it that weekend.

Last, but not least, is one of the more popular parts of the show which is unique to Prescott: The Old Engine Fire Up area. This is a special opportunity to view some of the oldest, wonderful and interesting old steam engines, hit and miss gas engines, water pumps and many other antique mechanical machines dating back to the 1800's. Kids (and adults) love this area for the quaint noises and smells that remind us of yesteryear. A must see for show attendees. The guys and gals that display their reconstructed and restored machines are extremely proud of their work and hobby.

There will be food and beverage vendors, a playground for the children, KKLD live broadcast on Saturday, plenty of sunshine on the cool grass field of Watson Lake Park located north of Prescott on Hwy 89. Come on out for both days and enjoy one of the most waited for events on the Prescott calendar: The 45th Annual Prescott Antique Auto Club Car Show, Parts Exchange, Old Engine Fire Up and Car Corral. You will return year after year.

Proceeds from our show go towards automotive scholarships at Yavapai College, Christmas gift giving at the Bob Stump Veterans Hospital, visits to local assisted living centers and funds to continue to maintain, upgrade, insure and display Prescott's first ladder fire truck, a 1931 Seagrave.
